

IT'S GOTTA BE GREAT

words, music and arrangement

by Merla Watson

1) A man wants to fly, a man needs to cry,
To reach for the sky, He wants to know how to die,
He looks here and there, He tries each new flair,
As long as he dare, He even grows miles of hair!

(chorus) It's new, so it's gotta be great!

It swings and it helps you relate!

It's free mental state is the wildest of bait!

It's new, so it's gotta be great!

2) Banana peels, glue, and spider webs too:
These things he hopes do lead him to what is true;
He soon finds each trend leads to a dead end;
And even his friend has only made him descend!

(chorus)

3) This man is real hip, He's been on a trip,
It's fake fellowship, He finds it's all been a gyp!
God wants him to fly, God wants him to cry,
To reach for the sky, That's why He sent Christ to die!

(chorus)
